Rocky Kumar

Experienced PHP (Laravel) developer with a successful track record of One year in the field, honing skills at Absolute Dimension Pvt. Ltd. Recognizing the pivotal role of development at your esteemed company, I am eager to transition into a full-time PHP (Laravel) Developer position. Seeking an innovative and growth-focused firm that values my analytical and technical experties, while offering opportunities for continuous learning. My goal is to leverage my organizational acumen to drive efficient project completion and contribute to both the company's progress and my own professional advancement.

PROJECTS

Paradise Real State (04/2024 - Present)
- The project aims to streamline the process for users to make inquiries about real estate options.
- Enhanced the user experience by making the system more user-friendly.

Jingle ERP (07/2023 - 10/2023)
- Led development of a Multibanking Transaction System, ensuring scalability and security.
- I helped make a system where you can manage money from different banks easily.
- I made sure it could handle lots of users and keep their info safe.
- Language Used : Laravel, MySQL, HTML, CSS.
